CAREER OBJECTIVE

B.E. Graduate in Computer Science with a solid foundation in **AWS Cloud, Java Full Stack web Development**, using **Django, Python, MySQL, REST APIs**, and **ReactJS**. Strong understanding of **software lifecycle, agile principles** and modern **development practices**. Seeking a **backend** or **full-stack developer** role to contribute and grow.

EDUCATION

B.E in Computer Science, Visvesvaraya Technological University 01/2021 – 06/2024 | Karnataka, India
CGPA-8.26

PUC Science, Sarvajna PU college of science 05/2018 – 03/2020 | Karnataka, India
Percentage: 86%

PROFESSIONAL EXPERIENCE

AWS Cloud intern at, Microdegree 📁 07/2024 – 11/2024 | Bangalore, India
Gained practical experience in AWS Cloud, including deploying, managing, and monitoring cloud resources using services like EC2, S3, IAM, Lambda, and CloudWatch.

- Acquired strong knowledge of cloud architecture, scalability, and cost optimization through real-world project implementation.
- Developed hands-on skills in DevOps practices, including automation, CI/CD pipelines, and version control using Git and GitHub.
- Worked with tools and technologies to improve deployment efficiency, infrastructure management, and system reliability.

AWS Academy Cloud Foundations, HoneyWell 📁 11/2023 – 12/2023 | Bangalore, India
• Completed the AWS Academy Cloud Foundations program, gaining a strong understanding of core AWS services, cloud concepts, and security best practices.
• Worked on practical cloud deployment and management tasks, including creating and configuring AWS resources such as EC2, S3, and IAM.

Java Full Stack developer intern at, Dlithe 📁 08/2023 – 09/2023 | Bangalore, India
• Gained hands-on experience in HTML, CSS, JavaScript, React.js, Node.js, and MySQL for full stack web development.
• Worked on frontend and backend integration, focusing on creating dynamic and responsive web applications.
• Gained exposure to Agile development processes and utilized GitHub for version control and collaborative development.

PROJECTS

AutoMailer - S3 File Upload Notification

- Developed a serverless email notification system that automatically sends alerts when new files are uploaded to an Amazon S3 bucket.
- Utilized AWS Lambda, Amazon SES, S3, IAM, and CloudWatch to automate the workflow with secure permissions and real-time monitoring.
- Improved operational efficiency by enabling automated file tracking and email communication without manual intervention.

Static Website Hosting on AWS EC2

- Deployed a static website using Amazon EC2 with Apache Web Server.
- Configured security groups, key pairs, and Elastic IP for secure and reliable access. -Transferred website files to EC2 using SCP/SSH and managed hosting in /var/www/html.
- Verified accessibility via public IP address to demonstrate hosting capability.

Doctor's Appointment Website

- Developed a responsive web application that allows patients to book, manage, and schedule doctor appointments online with an intuitive user interface.
- Built using HTML, CSS, JavaScript, and integrated form validation for a seamless user experience.
- Focused on user-friendly design, accessibility, and efficient appointment management to enhance healthcare service delivery.

SKILLS

Languages: Python, SQL, HTML, CSS, JavaScript, ReactJS.

Database: MySQL, MongoDB

Technologies / Frameworks: Bootstrap, Django

Version Control: VS Code, Git,

Knowledge: REST APIs, Git, Basic AWS,

CERTIFICATES

Java Full Stack Developer Program (Itvedant Education Pvt. Ltd. -Ongoing.)

AWS Solution Architect  (Microdegree -2024)

AWS Academy cloud Foundation  (Honeywell - 2023)

Java Full Stack Developer  (DLithe - 2023)
